

Estimated Funeral Cost Worksheet

The purpose of this worksheet is to assist you in estimating the costs for the type of funeral you are considering based on prices in effect at our funeral home on March 1, 2009 and is subject to change. This calculation worksheet is not nor does it replace a Statement of Funeral Goods and Services Selected and should be considered "informational" only. Any and all charges and costs are not final or agreed to until approved and countersigned by a licensed funeral director from our firm on a Statement of Funeral Goods and Services Selected.

Using our General Price List place the charges for the items you select on the appropriate line
